

## 2024 Technician License Preparation Classes

The Technician License Preparation classes will begin again in a few weeks, says Doug Wilson (KH7DQ). Two classes will be offered. One will be held over a six-week period via Zoom and the other will be an accelerated in-person version. Both classes are free except for the \$15 exam fee at the end of each class.

### **Technician License Preparation Class via Zoom (6-weeks)**

This class will be conducted twice-a-week for an hour each, over a six-week period via Zoom. Instructors will cover all of the questions in the Technician License question pool, explain each question-and-answer, and answer student questions. All materials will be provided, including all of the questions in the question pool and additional study materials and related references.

### **Accelerated Technician License preparation Class (2 days)**

This 2-day course is not for the faint of heart. It requires students to do considerable self-preparation work prior to the 2-day class. This includes taking multiple on-line practice exams, prior to the 2-day concentrated class sessions. During the in-person class sessions, the instructors will review all of the questions in the Technician License question pool, explain each question-and-answer, and answer student questions. This will be followed by a review of the presented materials prior to taking the exam on the second day.
